Entrepreneur Boot Camp for Disabled Veterans

November 4 – November 8, 2013

Fayetteville State University

Fayetteville, NC

“The Entrepreneur Boot Camp for Disabled Veterans was one of the best investments of my time ever! The high level of professionalism was evident from the time I received my acceptance letter until Graduation. The course did not disappoint!”

– Orvie Baker, 2011 Graduate

UNIQUE ENTREPRENEURSHIP PROGRAM FOR DISABLED VETERANS

To support men and women who have served our country and risked their lives for a world free from tyranny and terrorism, the EBV goal is to help make the transition from military life to the entrepreneurial world a successful one. The EBV provides a learning and development opportunity for all disabled veterans who are interested in starting a business. While designed as a start-up initiative, the EBV is also open to disabled veterans who have an existing business.

The mission of the EBV is to foster the creation of successful, profitable ventures. To that end, the EBV offers a unique training program built around hands-on learning and practical interaction with business professionals. A team of world-class faculty and resource professionals work closely with the EBV to provide a challenging, interactive and informative experience. The program provides the opportunity for students to develop entrepreneurial ideas while also learning leading edge concepts, tools, and frameworks. Most importantly, EBV participants will learn how to apply those principles to current or potential businesses.

EBV SPECIFICS

At the heart of the EBV is an intense, five day integrated training program. The program’s curriculum modules will cover the critical success areas for new and early stage ventures. The five day training program is preceded by an introductory period of online self study designed primarily for review and idea generation. The third stage of the program is a ten month period of mentorship and business counseling. The integrated model is a three phase program covering the key elements of successful entrepreneurship. The program offers an innovative and effective combination of focused, practical training in business creation and growth, accompanied by a support structure for graduates of the program.

EBV Phase I: *Concept Development and Self Study:*

October 25, 2013 – November 3, 2013. Over the initial phase I period, delegates will participate in an online self-study curriculum designed to assist in reviewing basic business fundamentals while offering support for idea generation. This phase enables delegates to work on development of business concepts and prepare for the EBV. Those with existing businesses will work on understanding and shaping relevant business issues.

EBV Phase II: *Boot Camp:*

November 4 – November 8, 2013. The five day boot camp is designed to be diversified, interesting, and fast-moving. It is an opportunity for hands-on learning and interaction. The EBV exposes participants to the “nuts and bolts” of business ownership through experiential workshops and lessons with faculty, guest entrepreneurs, and business experts.

EBV Phase III: *Mentoring and Venture Development:*

December 2013 – September 2014. Delegates are provided ongoing mentorship from entrepreneurship experts at the Veterans Business Outreach Center at FSU. This phase of the EBV will enable delegates to receive specific feedback regarding their ventures while offering hands-on support.
